

Pineapple Cove Classical Academy

**6162 Minton Road NW
Palm Bay, 32907
Telephone: 321-802-9500**

ADMINISTRATION

**Mrs. Kelly Gunter, Director of School Operations
Mrs. Lisa Wheeler, Principal
Mr. John Ottinger, Assistant Principal of Academic Affairs
Mrs. Michelle Johns, Student Services Coordinator 7-11
Mr. Manny Ramirez, Assistant Principal of Student Affairs**

GUIDANCE DEPARTMENT

**Mrs. Chris Thomas, Guidance Counselor
Mrs. Candace Terry, Academic Advisor
Mrs. Joanne Maciejewski, Registrar**

Learn the true, do the good, love the beautiful

MISSION STATEMENT

The mission of Pineapple Cove Classical Academy is to develop graduates in mind and character through a classical, content-rich curriculum that emphasizes the principles of virtuous living, traditional learning, and civic responsibility. We are building intelligent, virtuous American citizens.

The Virtues of Pineapple Cove Classical Academy

Courage

I will do the right thing even when it is the unpopular decision

Courtesy

I will be polite, use manners, and maintain a positive attitude all of my daily interactions

Honesty

I will speak the truth and act truthfully with myself and others

Perseverance

I will be persistent in my efforts despite difficulty or delay in achieving success

Self Government

I will use self control in my actions and interactions with others

Service

I will seek to help others through my words and deeds

History of Hillsdale Classical Education

Educational Philosophy

The Board of Directors requires that all students receive a classical, liberal education. To this end the BOD has determined the following educational priorities. Basic cognitive skills and academic fundamentals: reading/writing/mathematics; Core subjects: English language and literature; history, geography, and government; physical and biological sciences; mathematics; Other classical subjects: music; art; Latin; Auxiliary subjects: foreign languages, P.E., performing arts, other social sciences; and Extracurricular activities as defined by the Principal. Students will change classrooms individually to meet with subject matter specialists. The 7-12 curriculum will follow the recommendations of Hillsdale College with modifications to the course sequence as outlined by State and District standards. Teachers must develop their courses under the direction of the Principal, who is the chief academic leader and accountable to the BOD.

A classical education is a liberal arts education intended to equip students for virtuous, knowledgeable, and happy lives. Our students will be engaged citizens and intellectually rigorous contributors, well qualified for future studies in law, medicine, business, engineering, technology, theology or any other professional or vocational pursuit.

In the **humanities**, students engage in Socratic discussion, as teachers propose questions based on close readings of complete works. Freshmen read *The Iliad* and *The Aeneid* and delve into the works of historians and philosophers such as Thucydides, Herodotus, Plato, and Plutarch. In their sophomore year, students read Shakespeare, Chaucer, Dickens, and Austen, while considering the religious and political contributions of Augustine through Adam Smith and American History. Students dig deeper into American influence in their junior year, completing courses in American Literature and American Government. They read the founding documents as well as the influential Federalist papers, presidents, authors, and activists of the 19th century. Finally, the senior year focuses on modern times with works by Fyodor Dostoyevsky and George Orwell and a study of the presidencies, wars, politics, and theories that shaped the era.

Mathematics and **science** classes place an emphasis on the search for truth and beauty and the primacy of logic (including Euclidean Geometry), as well as deductive reasoning as students move from foundational to more advanced courses. During the senior year, scholars are required to take **Moral Philosophy** and write a **Senior Thesis** and defend it before faculty members and peer

Scholars are required to complete a minimum of two years of **Latin** before pursuing two additional years of world language. Many choose to advance further in Latin or pursue a foundation in Spanish. As seniors, scholars take **Moral Philosophy**, with a focus on the moral traditions of Western Civilization.

Scholars may continue to build upon **music theory** and **art history** by participating in

performance ensembles and advanced art classes.

TABLE OF CONTENTS

NOTE: Portions of this handbook may be subject to change due to any future Florida legislative and/or Brevard School Board action.

MIDDLE SCHOOL INFORMATION

Program of Study

Students should select their program of study carefully. Course selections should be made to fulfill requirements both for graduation and postsecondary plans. This booklet is designed to assist students and parents in meeting those requirements. Schools may supplement this booklet with information unique to an individual school. As always, please consult your counselor and teachers for additional information concerning course content and selection.

Selection of Courses

All Brevard County secondary students must attend a regularly scheduled instructional day.

MIDDLE SCHOOL COURSE SELECTION

Middle school students in grades 7-8 must select the following subjects areas each school year:

- ❖ Language Arts
- ❖ Mathematics
- ❖ Science
- ❖ Social Studies
- ❖ Physical Education
- ❖ Electives

All students are required to enroll in a full course load.

PROMOTION TO HIGH SCHOOL (GRADE 9)

Starting with 6th grade, a student must successfully complete the following:

- ❖ Three middle grades or higher courses in English Language Arts (ELA)
- ❖ Three middle grades or higher courses in mathematics
- ❖ Three middle grades or higher courses in social studies (one of these courses must be a civics course)
- ❖ Three middle grades or higher courses in science
- ❖ One Career and Education Planning course

In addition, students must meet the district attendance requirements.

GRADING INFORMATION

HOMEWORK & CLASSWORK

Homework is a fundamental part of our general academic program. It prepares students for high school and for entry into the working world upon graduation. It also helps develop a strong work ethic and habits of organization. Homework's immediate educational purpose is:

- to reinforce skills, concepts, and knowledge learned in class;
- to develop good skills and habits of study;

- to practice skills and reinforce knowledge in ways that are not readily accomplished in the classroom;
- to work on assignments, such as the writing of papers, and prepare for exams that require a great deal of sustained, individual attention;
- to prepare for the following day's work so that the most can be made of class time; and
- to inform parents of what is being taught in the classroom.

In addition to regular classroom assignments, we would like each younger child to read, or be read to, at least three times a week and preferably every day. Going to college is not necessarily a goal for everyone, but becoming a thoughtful reader should be if one hopes to be knowledgeable, wise, insightful, and competitive throughout one's lifetime. We believe that becoming a competent reader is critical to being a good student and the first step to being able to explore the world. Reading to a child encourages the child's growth and also elevates and informs conversation within the family. In the upper grades, the extra reading time (roughly half an hour) allows for the increasing length of great works of literature. The expected homework time allotment for each grade is as follows:

- Grade 7 70 minutes plus reading time
- Grade 8 80 minutes plus reading time

The designated times serve as guidelines and may vary depending on the work assigned on a given day, the schedule, the student's organizational skills and study habits, the varying abilities of the students, and the nature of the assignments. Students are expected to learn how to use their time effectively to complete the required work at each grade level. Parents are expected to support their children in this endeavor. Advanced or honors classes may require additional homework time. It is generally understood that writing papers and studying for exams take more time than regular classroom assignments. For that reason, the end of a term does result in a peak in the homework load (followed by a break, fortunately). Nonetheless, teachers will make every effort to give assignments well enough in advance, and students will be encouraged to work on those longer assignments steadily, so that students are able to manage their homework along with other activities and adequate sleep.

In the Jr./Sr. high school, students may have the opportunity of taking a study hall, thus reducing the amount of time at home that must be devoted to homework. Weekends and breaks will, for the purposes of homework, be considered one day rather than two or more. For poor or uncompleted work, teachers may require students to redo an assignment. Whether such work is given any credit is left to the discretion of the teacher. So-called "passes" that allow students not to do homework for a day will not be entertained at Pineapple Cove Classical Academy.

GRADING SCALE

Pineapple Cove Classical Academy uses a 4.0 grading scale. The following grading scale has been established by Florida Statute 1003.437 and is used in all Brevard County secondary schools.

- 90 - 100 = A
- 80 - 89 = B
- 70 - 79 = C
- 60 - 69 = D

$$0 - 59 = F$$

To average semester grades, the teacher doubles the average of each grading period, adds the semester exam grade and divides by five. The teacher may use either numerical averages or letter grades with the following values assigned: A = 4 points, B = 3 points, C = 2 points, D = 1 point, F = 0 points.

Parents and students should be regularly informed of the student's progress. Each course will be comprised of the following weighted categories:

- Tests 40%
- Quizzes 30%
- Classwork 20%
- Homework 10%

“Extra credit,” whether to make up for work not turned in on time or to increase a student's grade, will be discouraged at Pineapple Cove Classical Academy.

Semester Examinations

Semester examinations shall be required for all junior high school courses. Semester and/or Final Exams Semester are not permitted to be taken early under any circumstances unless approved by the principal. If a student does not take their final exam on the scheduled day, they will receive a zero. Once a student takes their semester or final exam, the grade will be recalculated. In calculating the semester average (for 7th and 8th grades), each nine-week mark shall count as 45% of the semester grade and the Semester Exam will count as 10%. In calculating the final yearly average, the average of both semester grades will be taken. First semester exams must be completed by the last day of the first semester and second semester final exams must be completed by the last day of school. If final exam make-ups are not completed within the designated due dates, the final grade will remain.

Course Exceptions to the Above Grading Criteria End of Course Exams (EOC) are required for Civics, Algebra 1, and Geometry. Final Course Grade for EOC courses will be calculated and determined as follows: 1st Semester Average = 35%; 2nd Semester Average= 35%; EOC Exam = 30%

Elective courses will not include a midterm or final exam. Physical Education (PE) – Grades for PE will be dependent on participation and scholars dressing out for class. Scholars will follow their schedule to determine PE days and be prepared to dress out on those days. It is imperative that scholars maintain proper hygiene and always have a clean uniform to dress out in on their scheduled PE days.

Late Assignments/Absences

Late work will be accepted with the following penalties: Submission one day after the due date will result in a 10% reduction of the score earned. (e.g. A score of 80% will be reduced to 70%). Work turned in two days late will result in a 50% reduction of the score earned. Work turned in three days late or more will receive no credit. Students who are absent will have two days for each day absent to make-up work. Graded classwork and assessments must be made up at the school. If needed, students may be invited to stay after school on Fridays to make-up work

missed due to absence. If a student receives a failing grade for attendance (absences exceed the 9 days per semester), all grades above 60% will be lowered to 59% and the student will receive an "FA" for the course(s) exceeding 9 absences. Grades below 59% will be recorded as earned.

Grade Forgiveness

Grade forgiveness policies shall be made for a student in the middle grades who takes any high school course for high school credit and earns a grade of "C," "D," or "F". In such a case, the district forgiveness policy must allow the replacement of the grade with a grade of "C" or higher earned subsequently in the same or comparable course.

Note: Comparable is defined as a course in the same subject area. The subject area of a course shall be determined by the subject area listed in the FLDOE Course Code Directory unless otherwise noted by the district.

Tutoring

Pineapple Cove Classical Academy offers tutoring for students in need of additional academic instruction during the school year for a nominal fee. Additional instruction is offered by subject for Jr./Sr. high school students. The tutoring program is offered each semester and is also dependent upon tutor availability.

Teacher Conferences

Parent/Teacher conferences are scheduled in the fall and spring semesters, generally in the evening. Arrangements for additional conferences may be made with your child's teacher before or after school hours, or during a teacher's planning time.

Academic Textbooks and Supplies

Students will receive a variety of books and materials. All books and materials will be marked as Pineapple Cove Classical Academy property. Materials that are loaned or given to students are to be treated appropriately. Students are responsible for these materials. If materials given or loaned to a student are lost or damaged the student must pay for any needed replacement. In the case that reimbursement has not been made to Pineapple Cove Classical Academy for lost or damaged materials, no further materials will be issued to that student until the past due fees are paid and report cards may be withheld.

Reporting

For students to be successful, both they and their parents should be informed of their standing in class. In addition to the regular grading of assignments, the following means will be employed to inform parents of their student's academic progress: Soon after the beginning of the year, teachers will send home an interim report of the students' progress. FOCUS will be used to track student progress. Parents should monitor student progress.

Interim Reports: Interim reports are sent home halfway through each quarter to all students. Once a semester (after the first and third quarters), parent-teacher conferences will occur to discuss the students' academic progress.

Report Cards will be sent home at the end of each quarter.

Schedule Changes

There will be no class schedule changes during the semester unless it is deemed in the best interest of the student by the school as determined by the Principal.

Plagiarism

Plagiarism will not be tolerated by any teacher in any subject. The entire system of assessment rests on the assumption that the work a student turns in is his own. Plagiarism compromises this system, is unfair to other students in the class who do their own work, and constitutes a form of theft of others' ideas and labor. Plagiarism is defined as the appropriation of another's ideas or words in order to present them as one's own. An instance of plagiarism can be as long as a term paper or as short as a sentence. Simply paraphrasing an author's words can also constitute plagiarism. The words of authors can only be used when properly quoted and cited. Teachers will provide the guidelines of acceptable citation. When in doubt, the student has the responsibility to ask how an author should be used in an assignment. Whenever a student has been caught plagiarizing, the following process will be followed. The teacher will keep a copy of the student's assignment and, whenever possible, a copy of the work in question. The teacher will discuss the matter with the student. The teacher will issue a disciplinary referral if plagiarism or cheating has occurred. Either the teacher or the Principal will inform the student's parent of the plagiarism or cheating. The student will receive a grade of zero on the assignment if it is the first offense. Instances of plagiarism or cheating may be placed in the student's permanent record.

ATHLETIC ELIGIBILITY

FOR 7TH GRADERS: 7th graders who are regularly promoted from the 6th grade are eligible to participate during the first semester of 7th grade, regardless of entry GPA. Any 7th grader who has a 2.0 or higher GPA from the first semester, will be eligible for athletic competition during the second semester.

FOR 8TH GRADERS: Any 8th grader who is regularly promoted from the 7th grade must have a 2.0 unweighted GPA or higher on all courses taken during the previous year for initial eligibility. From there, a student must maintain a 2.0 unweighted cumulative GPA on all courses taken since the beginning of 7th grade. Eligibility is determined for each semester.

HIGH SCHOOL CREDIT

Scholars have the opportunity to take high school credit starting in 7th grade. The following courses may be taken in middle school and receive high school credit:

- ❖ Latin 1 and Latin 2 (requires successful completion and credit earned in Latin 1)
- ❖ Algebra 1(Honors)
- ❖ Geometry (Honors) (requires successful completion and credit earned in Algebra 1)
- ❖ Journalism/Yearbook

MIDDLE SCHOOL CURRICULUM

Language Arts

M/J Lang Arts 2 Adv

1001050

1.0 credit

The purpose of this course is to provide grade 7 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

M/J Language Arts 3 Adv

1001080

1.0 credit

The purpose of this course is to provide grade 8 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Mathematics

M/J Accel Math Grade 7

1205050

1.0 credit

In this Grade 7 Advanced Mathematics course, instructional time should focus on five critical area: (1) solving problems involving scale drawings and informal geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area, and volume; (2) drawing inferences about populations based on samples; (3) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (4) grasping the concept of a function and using functions to describe quantitative relationships; and (5)

analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.

M/J Grade 8 Pre-Algebra

1205070

1.0 credit

Includes formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; grasping the concept of a function and using functions to describe quantitative relationships; analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.

Physical Education

M/J Comprehensive Physical Education 6/7

1508060

0.50 credit

The purpose of this course is to build on previously acquired knowledge, skills, and values necessary for the implementation and maintenance of a physically active lifestyle. The course content provides exposure to a variety of movement opportunities and experiences which include, but is not limited to: Outdoor Pursuits, Individual/Dual Sports and Alternative/Extreme Sports. The integration of fitness concepts throughout the content is critical to student success in this course and in the development of a healthy and physically active lifestyle.

M/J Comprehensive Physical Education 7/8

1508070

0.50 credit

The purpose of this course is to build on previously acquired knowledge, skills, and values necessary for the implementation and maintenance of a physically active lifestyle. The course content provides exposure to a variety of movement opportunities and experiences which include, but is not limited to: Outdoor Pursuits, Individual/Dual Sports and Alternative/Extreme Sports. The integration of fitness concepts throughout the content is critical to student success in this course and in the development of a healthy and physically active lifestyle.

Science

M/J Comprehensive Science 2 Adv

2002080

1.0 credit

Includes problem solving, measurement, safety procedures, earth systems, genetics, energy transfers within systems, interactions of science with technology and society, limiting factors in ecosystems, inheritance patterns, trophic levels, and the relationship between temperature and molecular kinetic energy. Students will design and conduct scientific investigations demonstrating skill and knowledge in a variety of scientific areas.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

M/J Comprehensive Science 3 Adv

2002110

1.0 credit

Includes problem solving, measurement, safety procedures, electromagnetic energy, space science, comparative astronomy, carbon cycle, structure and organization of matter, interactions of science with technology and society, photosynthesis, cellular respiration and atomic theory. The students will design and conduct scientific investigations demonstrating skills and knowledge in a variety of scientific areas.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Social Studies

M/J Civics Advanced

2106020

1.0 credit

The primary content for the course pertains to the principles, functions, and organization of government; the origins of the American political system; the roles, rights, responsibilities of United States citizens; and methods of active participation in our political system. The course is embedded with strong geographic and economic components to support civic education instruction.

The primary content for the course pertains to the principles, functions, and organization of government; the origins of the American political system; the roles, rights, responsibilities of United States citizens; and methods of active participation in our political system. The course is embedded with strong geographic and economic components to support civic education instruction. Honors/Advanced courses offer scaffolded learning opportunities for students to develop the critical skills of analysis, synthesis, and evaluation in a more rigorous and reflective academic setting. Students are empowered to perform at higher levels as they engage in the following: analyzing historical documents and supplementary readings, working in the context of thematically categorized information, becoming proficient in note-taking, participating in Socratic seminars/discussions, emphasizing free-response and document-based writing, contrasting opposing viewpoints, solving problems, etc. Students will develop and demonstrate their skills through participation in a capstone and/or extended research-based paper/project (e.g., history fair, participatory citizenship project, mock congressional hearing, projects for competitive evaluation, investment portfolio contests, or other teacher-directed projects).

M/J US History Adv

2100020

1.0 credit

Primary content emphasis for this course pertains to the study of American history from the Exploration and Colonization period to the Reconstruction Period following the Civil War. Students will be exposed to the historical, geographic, political, economic, and sociological events which influenced the development of the United States and the resulting impact on world history. So that students can clearly see the relationship between cause and effect in historical events, students should have the opportunity to explore those fundamental ideas and events which occurred after Reconstruction.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Research and Critical Thinking

Learning Strategies

7863090

1.0 credit

Enables students with disabilities to acquire and use strategies and skills to enhance their independence as learners in educational and community settings.

NOTE: Can be taken multiple times for credit.

M/J Critical Thinking

1700100

1.0 credit

The purpose of this course is to enable students to develop learning strategies, critical-thinking skills, and problem-solving skills to enhance their performance in academic and nonacademic endeavors. The content should include, but not be limited to, the following: strategies for acquiring, storing, and retrieving information, strategies for oral and written communication, critical-thinking operations, processes, and enabling skills, problem-solving skills and strategies, strategies for linking new information with prior knowledge.

Introduction to Technology and Career Planning

8600012

0.50 credit

The purpose of this course is to give students an introduction to the areas of technology and to introduce students to the design and problem solving processes using manipulative skills while working cooperatively with others in team activities.

Social and Emotional Skills 6-8

7863000

No Credit

Provides instruction related to environmental, interpersonal, and task-related behavior of students with disabilities.

Social and Emotional Skills 9-12

7963070

No Credit

Provides instruction related to environmental, interpersonal, and task-related behavior of students with disabilities.

Visual and Performing Arts

M/J Visual Art 2

0101110

0.50 credits

Students investigate contemporary and historical art themes using 2D and 3D media, skills and techniques; while engaging in the art production process within a studio arts environment. Projects may include but are not limited to: drawing, painting, printmaking, collage, mixed media, pottery, and sculpture. Students create new meaning from various media formats, and communicate artistic ideas through the intentional use of the elements of art within their work. Students interpret meaning in their artwork and the artwork of others through discussion, on various artistic concepts, viewpoints, and themes; drawing their own conclusions and employing this knowledge both expressively and technically.

Fundamentals of Vision and Performing Arts

8260500

0.50 credits

This course will assist students in making informed decisions regarding their future academic and occupational goals and to provide information regarding careers in Arts, A/V Technology and Communication career clusters. The content includes, but is not limited to, the development of leadership skills, communication skills, and employability skills; resource management; exploration of Visual Arts, Performing Arts, Journalism and Broadcasting careers. Instruction and learning activities are provided in a laboratory setting using hands-on experiences with the equipment, materials and technology appropriate to the course content and in accordance with current practices.

M/J Understanding Music

1300030

0.50 credit

Students engage in an exploratory study of music through the examination of significant composers and their compositions across selected musical eras and/or genres. Students will also learn about modern and historical instruments, and gain a rudimentary understanding of the elements of music in order to develop strategies for listening to and appreciating musical works.

Students may be expected to attend one or more performances outside of the school day to support and extend learning in the classroom.

HIGH SCHOOL INFORMATION

Program of Study

Students should select their program of study carefully. Course selections should be made to fulfill requirements both for graduation and postsecondary plans. This booklet is designed to assist students and parents in meeting those requirements. Schools may supplement this booklet with information unique to an individual school. As always, please consult your counselor and teachers for additional information concerning course content and selection.

Selection of Courses

All Brevard County secondary students must attend a regularly scheduled instructional day.

HIGH SCHOOL PROMOTION REQUIREMENTS

9th Grade to 10th Grade

- ❖ Enrollment - Been enrolled one (1) year in the 9-12 sequence;
- ❖ Credits - Earn at least five (5) credits (block schools – six (6) credits);
- ❖ Attendance - Meet the district attendance requirements.

10th Grade to 11th Grade

- ❖ Enrollment - Been enrolled two (2) years in the 9-12 sequence;
- ❖ Credits - Earn at least eleven (11) credits (block schools – thirteen (13) credits);
- ❖ Earn two (2) credits in language arts;
- ❖ Earn two (2) credits in mathematics;
- ❖ Attendance - Meet the district attendance requirements.

11th Grade to 12th Grade

- ❖ Enrollment - Been enrolled three (3) years in the 9-12 sequence;
- ❖ Credits - Earn at least eighteen (18) credits (block schools – twenty-one (21) credits);
- ❖ Earn three (3) credits in language arts;
- ❖ Earn three (3) credits in mathematics;
- ❖ Attendance - Meet the district attendance requirements.

PROMOTION NOTES

- ❖ Must meet all End of Course Assessments and statewide, standardized assessment requirements by graduation per Florida Statute.
- ❖ To be classified as a freshman (9th grade), a student must have been promoted from grade eight (8).

- ❖ Exceptions to the number of years spent in the 9-12 sequence for reclassification may be granted to students who are in a planned acceleration program. (Early High School Graduation option). (s.1003.4281 F.S.) The term “early graduation” means graduation from high school in less than eight (8) semesters or the equivalent. Please see Administration for more information.
- ❖ For data entry purposes regarding the graduation date - the final transcript should reflect a graduation date of one school day following the completion of the graduation requirements.

GRADUATION REQUIREMENTS

Graduation is the completion of all requirements to receive a high school diploma. A district school board must adopt rules for admitting, classifying, promoting and graduating scholars to and from various schools of the district. Additionally, a school board may adopt courses of study for use in the schools of the district.

To be awarded a high school diploma, a scholar must have completed the following:

- ❖ Completed all credit requirements as defined by: a. Brevard Public Schools twenty-six (26)-Credit Graduation Option
- ❖ Met the district attendance requirements and be enrolled at the graduation school for at least the last semester;
- ❖ Passed the required state assessments, if applicable, in order to qualify for a standard diploma (10th Grade statewide, standardized Reading, and Algebra 1 EOC Assessment);
- ❖ Demonstrated satisfactory mastery of the Student Performance Standards in ELA (Reading), writing, mathematics, science, and social studies as documented in accordance with procedures described in administrative guidelines;
- ❖ A minimum cumulative unweighted grade point average of 2.0 based on a 4.0 scale (s. 1003.4282(6)(a) F.S.). The required GPA must be based on all courses taken, except courses forgiven under state and district forgiveness policies. (s.1003.4282(6) F.S.);
- ❖ Received the principal's approval for graduation

Below provides a chart that lists the specific graduation requirements for students currently in high school. In addition to the Standard High School Diploma, students have the option to earn a Scholar Designation and/or a Merit Designation.

Scholar Designations

Scholar Diploma Designation

Scholars who meet the following requirements will receive a Scholar Diploma Distinction. This is a special recognition signified on a scholars diploma.

- Pass Geometry EOC
- Earn 1 credit in Algebra 2
- Earn 1 credit in Statistics or an equally rigorous mathematics course
- Pass the Biology 1 EOC
- Earn 1 credit in Chemistry or Physics
- Earn 1 credit in a course equally rigorous to Chemistry or Physics (any EQ Science course)
- Pass the U.S. History EOC
- Earn 2 credits in the same World Language
- Earn at least 1 credit in AP, IB, AICE, or a dual enrollment course.

Florida Seal of Biliteracy Diploma Designation

To encourage study of foreign language and attain biliteracy, scholars who meet the following requirements will receive the Florida Seal of Biliteracy Designation. This is a special recognition signified on a scholars diploma.

Florida Seal of Biliteracy Silver Seal

- Earned 4 world language course credits in the same language with a cumulative 3.0 GPA or higher
- Score a 3 on the 10th grade ELA FSA,
- Score a 3 or higher on AP World Language test score

Florida Seal of Biliteracy Gold Seal

- Earn a 4 world language course credits in the same language with a cumulative 3.0 GPA or higher
- Score a 4 or 5 on the 10th grade ELA FSA,
- Score a 4 or higher on AP World Language test score

Pineapple Cove Classical Academy Access Point Pathway Diploma

*The Standard Diploma-Access Points pathway includes requirements for a Standard Diploma for students with disabilities for whom the IEP team has determined that participation in the Florida Standards Alternate Assessment is the most appropriate measure of the student’s skills and instruction in the Access Points is the most appropriate means of providing the student access to the general curriculum. For specific requirements, please refer to the “Standard Diploma- Access Point Pathway” chart or contact the Administration.

Subject Area	Requirements
English Language Arts	4.0 Credits <ul style="list-style-type: none"> ● Access English I, II, III, IV • Proficient score on 10th grade ELA alternate assessment - Results may be waived when mastery of standards is documented through a portfolio
Math	4.0 Credits <ul style="list-style-type: none"> ● Access Algebra 1A and Access Algebra 1B ● Access Geometry • One other math course ● Proficient score on the Access Algebra assessment - Results may be waived when mastery of standards is documented through a portfolio ● Must take Geometry alternate assessment which will count for 30% of final course grade - Results may be waived when mastery of standards is documented through a portfolio
Science	3.0 Credits <ul style="list-style-type: none"> ● Access Biology • Two other equally rigorous science courses • Must take Biology alternate assessment which will count for 30% of final course grade - Results may be waived when mastery of standards is documented through a portfolio
History	3.0 Credits <ul style="list-style-type: none"> ● Access World History, Access U.S. History, Access U.S. Government, Access Economics with Financial Literacy ● Must take U.S. History alternate assessment which will count for 30% of final course grade - Results may be waived when mastery of standards is documented through a portfolio
Performing Fine Arts	1.0 Credit <ul style="list-style-type: none"> ● fine or performing arts, speech and debate, or practical arts
HOPE/PE	1.0 Credit
Required Electives	1.0 Credit <ul style="list-style-type: none"> ● Moral Philosophy (0.5) ● Senior Thesis (0.5)
Electives	5.0 Credits
Online Course	1 course - May be waived by the IEP team per s. 1003.4282(4), F.S

Grade Point Average: Scholars must graduate with a 2.0 on a 4.0 scale.

Notes:

Assessments: Proficiency on the Florida Standards Alternate Assessments for grade 10 English Language Arts and the End-of-Course (EOC) assessment for Access Algebra I, unless assessment results are waived in accordance with s. 1008.22(3)(c), F.S. A waiver of the results of the statewide, standardized assessment requirements by the IEP team, pursuant to s. 1008.22(3)(c), F.S., must be approved by the parents and is

subject to verification for appropriateness by an independent reviewer selected by the parents as provided for in s. 1003.572, F.S.

Portfolios: For those students whose performance on standardized assessments are waived by the IEP team as approved by the parent, the development of a graduation portfolio of quantifiable evidence of achievement is required. The portfolio must include a listing of courses the student has taken, grades received, student work samples and other materials that demonstrate growth, improvement, and mastery of required course standards. Multimedia portfolios that contain electronic evidence of progress, including videos and audio recordings, are permissible. Community based instruction, MOCPs, work experience, internships, community service, and postsecondary credit, if any, must be documented in the portfolio.

Certificate of Completion: Will be awarded to students who earn the required 24 credits but fail to pass the assessments under s. 1008.22, F.S., (unless result waiver granted) and/or achieve a 2.0 GPA.

GRADING INFORMATION

HOMEWORK & CLASSWORK

Homework is a fundamental part of our general academic program. It prepares students for high school and for entry into the working world upon graduation. It also helps develop a strong work ethic and habits of organization. Homework's immediate educational purpose is:

- to reinforce skills, concepts, and knowledge learned in class;
- to develop good skills and habits of study;
- to practice skills and reinforce knowledge in ways that are not readily accomplished in the classroom;
- to work on assignments, such as the writing of papers, and prepare for exams that require a great deal of sustained, individual attention;
- to prepare for the following day's work so that the most can be made of class time; and
- to inform parents of what is being taught in the classroom.

In addition to regular classroom assignments, we would like each younger child to read, or be read to, at least three times a week and preferably every day. Going to college is not necessarily a goal for everyone, but becoming a thoughtful reader should be if one hopes to be knowledgeable, wise, insightful, and competitive throughout one's lifetime. We believe that becoming a competent reader is critical to being a good student and the first step to being able to explore the world. Reading to a child encourages the child's growth and also elevates and informs conversation within the family. In the upper grades, the extra reading time (roughly half an hour) allows for the increasing length of great works of literature. The expected homework time allotment for each grade is as follows:

- Grades 9-12 100 minutes plus reading time

The designated times serve as guidelines and may vary depending on the work assigned on a given day, the schedule, the student's organizational skills and study habits, the varying abilities of the students, and the nature of the assignments. Students are expected to learn how to use their time effectively to complete the required work at each grade level. Parents are expected to support their children in this endeavor. Advanced or honors classes may require additional homework time. It is generally understood that writing papers and studying for exams take more time than regular classroom assignments. For that reason, the end of a term does result in a peak

in the homework load (followed by a break, fortunately). Nonetheless, teachers will make every effort to give assignments well enough in advance, and students will be encouraged to work on those longer assignments steadily, so that students are able to manage their homework along with other activities and adequate sleep.

In the Jr./Sr. high school, students may have the opportunity of taking a study hall, thus reducing the amount of time at home that must be devoted to homework. Weekends and breaks will, for the purposes of homework, be considered one day rather than two or more. For poor or uncompleted work, teachers may require students to redo an assignment. Whether such work is given any credit is left to the discretion of the teacher. So-called “passes” that allow students not to do homework for a day will not be entertained at Pineapple Cove Classical Academy.

Grading Scale

Pineapple Cove Classical Academy uses a 4.0 grading scale. The following grading scale has been established by Florida Statute 1003.437 and is used in all Brevard County secondary schools.

90 - 100	= A
80 - 89	= B
70 - 79	= C
60 - 69	= D
0 - 59	= F

To average semester grades, the teacher doubles the average of each grading period, adds the semester exam grade and divides by five. The teacher may use either numerical averages or letter grades with the following values assigned: A = 4 points, B = 3 points, C = 2 points, D = 1 point, F = 0 points.

Individual Class Progress

Parents and students should be regularly informed of the student’s progress. Each course will be comprised of the following weighted categories:

- Tests 40%
- Quizzes 30%
- Classwork 20%
- Homework 10%

“Extra credit,” whether to make up for work not turned in on time or to increase a student’s grade, will be discouraged at Pineapple Cove Classical Academy.

Semester Examinations

Semester examinations shall be required for all junior high school courses. Semester and/or Final Exams Semester are not permitted to be taken early under any circumstances unless approved by the principal. If a student does not take their final exam on the scheduled day, they will receive a zero. Once a student takes their semester or final exam, the grade will be recalculated. In calculating the semester average (for 9th through 12th grades), each nine-week mark shall count as 40% of the semester grade and the Semester Exam will count as 20%. In calculating the final yearly average, the average of both semester grades will be taken. First semester exams must be completed by the last day of the first semester and second semester final exams must be

completed by the last day of school. If final exam make-ups are not completed within the designated due dates, the final grade will remain.

End of Course Exams (EOC) are required for Algebra 1, Geometry, Biology, and U.S. History. Final Course Grade for EOC courses will be calculated and determined as follows: 1st Semester Average = 35%; 2nd Semester Average= 35%; EOC Exam = 30%.

Elective courses will not include a midterm or final exam. Physical Education (PE) – Grades for PE will be dependent on participation and scholars dressing out for class. Scholars will follow their schedule to determine PE days and be prepared to dress out on those days. It is imperative that scholars maintain proper hygiene and always have a clean uniform to dress out in on their scheduled PE days.

Unweighted GPA

The cumulative unweighted grade point average includes all courses taken for credit. It is calculated for high school graduation purposes with the exception of those courses retaken under the Grade Forgiveness Policy.

Grade	All Course
A	4
B	3
C	2
D	1
F	0

Weighted GPA

The cumulative weighted grade point average includes additional weight for Dual Enrollment, Advanced Placement (AP), as well as Level III (Advanced) high school courses.

Note: School districts must weigh dual enrollment courses the same as advanced placement courses when grade point averages are calculated. Alternative grade calculation or weighting systems that discriminate against dual enrollment courses are prohibited.

Grade	Other Courses	Honors Courses	Dual Enrollment /AP Courses
A	4	4.5	5
B	3	3.5	4

C	2	2.5	3
D	1	1.0	1
F	0	0	0

Rank in class

Rank-in-class shall be for the purpose of college admissions and scholarship applications. The release of such individual student information shall be in accordance with School Board Policy 8330. Rank-in-class shall be computed on a cumulative unweighted GPA. State universities in Florida recalculate a student’s grade point average for admissions purposes in accordance with Florida statute and rule.

Upon a student or parent request, for purposes of admissions to colleges and universities which are not a part of the Florida state system, and for certain scholarship applications, the rank-in-class procedure utilizing only academic subjects on a weighted basis shall be used.

/

HONORS GRADUATES/VALEDICTORIAN/SALUTATORIAN

Any student with a minimum of a 3.50 cumulative weighted GPA at the end of the first semester during the year prior to graduation shall be declared an honor graduate provided that the student maintains a comparable level of performance during the second semester. All high school course grades earned in grades 7-12 are to be included in the grade point average for the determining honor graduates with the following exceptions:

- a. Adult education
- b. Pass/fail grades (transfer students)
- c. On-the-job
- d. Lowest grade for a course that is repeated

The cumulative weighted grade point average as indicated in the chart above shall be utilized in computing the grade point average.

Late Assignments/Absences

Late work will be accepted with the following penalties: Submission one day after the due date will result in a 10% reduction of the score earned. (e.g. A score of 80% will be reduced to 70%). Work turned in two days late will result in a 50% reduction of the score earned. Work turned in three days late or more will receive no credit. Students who are absent will have two days for each day absent to make-up work. Graded classwork and assessments must be made up at the school. If needed, students may be invited to stay after school on Fridays to make-up work missed due to absence. If a student receives a failing grade for attendance (absences exceed the 9

days per semester), all grades above 60% will be lowered to 59% and the student will receive an “FA” for the course(s) exceeding 9 absences. Grades below 59% will be recorded as earned.

Grade Forgiveness

High School Forgiveness policies for required courses shall be limited to replacing a grade of “D” or “F” with a grade of “C” or higher earned subsequently in the same or comparable course.

Note: Comparable is defined as a course in the same subject area. The subject area of a course shall be determined by the subject area listed in the FLDOE Course Code Directory unless otherwise noted by the district.

Forgiveness policies for elective courses shall be limited to replacing a grade of “D” or “F”, with a grade of “C” or higher, earned subsequently in the same, comparable, or another course.

High School

In all cases of grade forgiveness, only the new grade shall be used in the calculation of the student’s grade point average. Any course grade not replaced according to a district school board forgiveness policy shall be included in the calculation of the cumulative grade point average required for graduation. (s.1003.4282(5) F.S.)

Explanatory Note: Rule 6A-1.0955(3), F.A.C. requires each school district to keep a record of courses taken and a record of achievement, such as grades, unit, or certification of competence. Student records cannot be altered at any time unless it has been determined that the information is inaccurate or in violation of the privacy or other rights of the student. All courses and grades must be included on the student’s transcript. The authority for the school board to adopt a forgiveness policy does not provide the authority to alter a student’s record to delete the forgiven course and grade. The forgiveness policy authorization is for the express purpose of assisting students in meeting the requirements necessary to graduate from high school, including a minimum grade point average and successful completion of academic credit or curriculum requirements. The school board does not have the authority to purge that student’s record to delete the first grade. All forgiven courses and grades must be included on a student’s transcript as an accurate reflection of the student’s record of achievement.

Tutoring

Pineapple Cove Classical Academy offers tutoring for students in need of additional academic instruction during the school year for a nominal fee. Additional instruction is offered by subject for Jr./Sr. high school students. The tutoring program is offered each semester and is also dependent upon tutor availability.

Teacher Conferences

Parent/Teacher conferences are scheduled in the fall and spring semesters, generally in the evening. Arrangements for additional conferences may be made with your child’s teacher before or after school hours, or during a teacher’s planning time.

Academic Textbooks and Supplies

Students will receive a variety of books and materials. All books and materials will be marked as Pineapple Cove Classical Academy property. Materials that are loaned or given to students are to be treated appropriately. Students are responsible for these materials. If materials given or loaned to a student are lost or damaged the student must pay for any needed replacement. In the case that reimbursement has not been made to Pineapple Cove Classical Academy for lost or damaged materials, no further materials will be issued to that student until the past due fees are paid and report cards may be withheld.

Reporting

For students to be successful, both they and their parents should be informed of their standing in class. In addition to the regular grading of assignments, the following means will be employed to inform parents of their student's academic progress: Soon after the beginning of the year, teachers will send home an interim report of the students' progress. FOCUS will be used to track student progress. Parents should monitor student progress.

Interim Reports: Interim reports are sent home halfway through each quarter to all students. Once a semester (after the first and third quarters), parent-teacher conferences will occur to discuss the students' academic progress.

Report Cards will be sent home at the end of each quarter.

Schedule Changes

There will be no class schedule changes during the semester unless it is deemed in the best interest of the student by the school as determined by the Principal.

Plagiarism

Plagiarism will not be tolerated by any teacher in any subject. The entire system of assessment rests on the assumption that the work a student turns in is his own. Plagiarism compromises this system, is unfair to other students in the class who do their own work, and constitutes a form of theft of others' ideas and labor. Plagiarism is defined as the appropriation of another's ideas or words in order to present them as one's own. An instance of plagiarism can be as long as a term paper or as short as a sentence. Simply paraphrasing an author's words can also constitute plagiarism. The words of authors can only be used when properly quoted and cited. Teachers will provide the guidelines of acceptable citation. When in doubt, the student has the responsibility to ask how an author should be used in an assignment. Whenever a student has been caught plagiarizing, the following process will be followed. The teacher will keep a copy of the student's assignment and, whenever possible, a copy of the work in question. The teacher will discuss the matter with the student. The teacher will issue a disciplinary referral if plagiarism or cheating has occurred. Either the teacher or the Principal will inform the student's parent of the plagiarism or cheating. The student will receive a grade of zero on the assignment if it is the first offense. Instances of plagiarism or cheating may be placed in the student's permanent record.

Advanced Placement (AP)

Advanced Placement (AP) is the enrollment of an eligible secondary student in a course offered through the Advanced Placement Program administered by the College Board. Course descriptions and course examinations are prepared by the College Board. Examinations are administered at high school sites in May of each year at a fee established by the College Board.

Students who successfully complete the course work in an Advanced Placement class receive credit toward high school graduation. Postsecondary credit for an AP course shall be awarded at Florida public colleges/universities to students who score a minimum of three (3) on a 5-point scale on the corresponding AP exam. Although most colleges and universities grant advanced placement and/or credit to students presenting AP Examination grades of three (3) or higher, policies on awarding college credit are the decision of the individual institution. All students enrolled in an AP course are required to take the AP Exam. Students shall be exempt from the payment of any fees for administration of the examination regardless of whether or not the student achieves a passing score on the examination. (s. 1007.27(5) F.S.)

Advanced Placements Courses Offered at Pineapple Cove Classical Academy

PCCA offers the following AP classes based on the scholar interest and enrollment:

- ❖ AP English Language and Composition
- ❖ AP English Literature
- ❖ AP Latin
- ❖ AP US History

Dual Enrollment

The Dual Enrollment Program at Eastern Florida State College (EFSC) is an accelerated program that allows eligible public/charter, private and home school secondary students to take postsecondary coursework and simultaneously earn high school and college credits. College courses are offered at Eastern Florida State College campuses/centers, including the Eastern Florida State College Online Campus.

It is not the intent of the dual enrollment program to replace the important tenets of a classical high school curriculum; instead, college coursework is intended to enrich and supplement the high school experience.

The eligibility criteria for dual enrollment is based on the student's program of study and selected dual enrollment option. Students pursuing a university-transfer Associate in Arts (A.A.) degree must present college-ready reading and writing scores from the ACT, SAT or PERT. In addition, associate degree-seeking students must have an unweighted high school grade point average (GPA) of 3.25 (PCCA minimum requirements may exceed EFSC requirements).

PCCA Dual Enrollment Eligibility Requirements

Pineapple Cove Classical Academy recognizes student and parent interest in achieving college credit during high school. The school's mission is to develop graduates in mind and character through a classical, content-rich curriculum that emphasizes the principles of virtuous living, traditional learning, and civic responsibility. In keeping with this mission, dual enrollment courses shall not replace or supersede coursework deemed necessary to the completion of a classical curriculum pertinent to achieving these goals. Student must be on track to meet promotion and graduation requirements as per the Board Student Progression Plan

As such, PCCA may institute requirements for entry and continued enrollment in dual enrollment coursework higher than requirements put forth by Eastern Florida State College or Brevard Public Schools. Additionally, PCCA may require participation in specific courses deemed necessary for a classical education. These additional requirements include:

- ✓ Completion of all four years of English courses at PCCA. ENC 1101 or ENC 1102 may be completed at the college for high school elective credit.
- ✓ Completion of Latin 1 and 2 at PCCA. Additional foreign languages needed for high school graduation may be taken at EFSC.
- ✓ Students may take MAC 1105 (College Algebra) or MGF 1106/1107 (Liberal Arts Math) as the beginning math course. PCCA will not permit students to take MAT 1033 (Intermediate Algebra) as it does not meet high school mathematics requirements.
- ✓ PCCA will not approve courses that duplicate credit earned through AP coursework.
- ✓ Minimum grade point average for EFSC dual enrollment is a 3.25
- ✓ PCCA will only approve courses that may count toward AA degree/transfer coursework

College-Ready Test Scores

Students must submit official college placement scores in reading, writing and mathematics to dual enroll in college credit courses. Approved tests include the ACT, SAT, and PERT. Scores may not be more than 24 months old.

The College must have an official test score report to use your ACT or SAT scores. Students should request that the testing agency send their ACT or SAT scores directly to EFSC. Students may also go to the SAT or ACT website in the presence of an EFSC staff member and access their score report using their password. The College will copy the report and use your score for official placement.

Continued Dual Enrollment

Student eligibility requirements for continued enrollment in college credit dual enrollment courses must include:

- ❖ Student continues to be on track to meet promotion and graduation requirements as per the District's Student Progression Plan
- ❖ Student must continuously meet all dual enrollment admission standards for their

- selected degree or certificate program to maintain eligibility
- ❖ Maintenance of a minimum unweighted high school GPA (which includes Dual Enrollment and High School courses) of 3.25,
 - A student who fails to meet the above requirements will be ineligible for dual enrollment for a period of one (1) school term.

NOTE:

- ❖ Students are expected to complete and achieve an overall GPA of 2.0 in college credit dual enrollment coursework taken during a term
- ❖ A student who withdraws from two (2) EFSC courses in one (1) term will be considered ineligible for dual enrollment in the next term.
- ❖ If a student withdraws from an EFSC course and does not notify the school in five (5) school days, the student is ineligible for dual enrollment for two (2) school terms.
- ❖

To be eligible for Dual Enrollment a scholar must complete the following:

(Process is subject to change with Covid-19. See Academic Advisor for details.)

Test Scores and high school GPA determines what classes can be taken.

- ❖ Attend PCCA Information Session to learn more about dual enrollment and eligibility requirements
- ❖ Meet with PCCA Academic Advisor to confirm eligibility
- ❖ Attend an EFSC Dual Enrollment orientation program. The EFSC orientation schedule is available in Guidance and on the EFSC website.
- ❖ Have test scores: SAT, ACT or PERT.
- ❖ Complete EFSC application online in orientation packet to the EFSC admission offices.
- ❖ Request an official Pineapple transcript be sent to EFSC.

Distance Learning

Full-time students may enroll in courses offered by distance (on-line or correspondence) learning programs, as part of, or in addition to, the regular instructional day. Courses may only be taken through distance learning provided that:

- ❖ the administration/guidance approves the course(s) prior to enrollment,
- ❖ a comparable course is not offered at PCCA
- ❖ the course content is comparable to the district-adopted course(s), and
- ❖ the course or courses are received on an official transcript as defined by the State Uniform Transfer of High School Credits Rule. (s.1003.25(3) F.S.) The principal shall award credit for successful course completion. Exceptions for extenuating circumstances must be approved by the Superintendent or his designee.
- ❖ Virtual school may be used for “grade forgiveness” for 7th or 8th graders who make a C or below, or 9th -12th graders who make a D or below.
- ❖ Students must follow FLVS/BVS attendance/submission policies. The student may be withdrawn (W), withdrawn failing (WF), or withdrawn passing (WP), this may be placed on the student’s transcript. Current Virtual School policy states they may

withdraw a student after 14 days of no submission of assignments or no contact with the teacher. Please review individual course requirements.

- ❖ ALL EOC courses must be completed by the end of Brevard County school year.
- ❖ Scholars enrolled in EOC courses must take spring EOC exams. Virtual School policy may be subject to change.

Integrity of Online Courses - 1002.321(5) F.S.

It is unlawful for any person to knowingly and willfully take an online course or examination on behalf of another person for compensation. Any person who violates this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

Bright Futures Scholarship Program

Requirements to Receive an Award: (As determined by the postsecondary institution)

- ❖ evaluated by Office of Student Financial Assistance (OSFA) as meeting the initial eligibility requirements
- ❖ Graduated with a standard high school diploma or its equivalent
- ❖ be a Florida resident and U.S. citizen or eligible noncitizen
- ❖ enroll as a degree- or certificate-seeking student at a Florida institution in at least 6 non-remedial semester credit hours
- ❖ complete a Florida Financial Aid Application (FFAA) during their senior year of high school before graduation.

NOTE: The Florida Legislature is authorized to change eligibility and funding requirements. For the most up-to-date eligibility and requirements as well as other scholarships through Bright Futures, please visit <http://www.floridastudentfinancialaid.org/ssfad/bf/> or call 1-888-827-2004

Award Name	GPA	Test Scores (Tests must be completed by June 30 of graduation year)	Volunteer Service Work	Required Academic Courses (Note: Courses listed for FAS and FMS are also the courses needed for admission to State Universities)
FLORIDA ACADEMIC SCHOLARS AWARD (FAS)	3.5 weighted GPA using the 16 credits listed. May include 2 additional academic units to raise GPA (including AP, AICE and IB Fine	SAT 1330 ACT 29 (Excludes Writing Score)	100 hours of community service	<ul style="list-style-type: none"> ❖ 4 English (3 with substantial writing) ❖ 4 Mathematics (Algebra 1 level and above, SEE NOTE BELOW) ❖ 3 Science (Biology, Chemistry and Physics OR Integrated Science 1, 2 and 3)

	Arts)			<ul style="list-style-type: none"> ❖ 3 Social Studies (World History, US History, US Government, Economics) ❖ 2 Foreign Language (sequential, same language)
MEDALLION SCHOLARS AWARD (FMS)	3.0 weighted GPA using the 16 credits listed. May include 2 additional academic units to raise GPA (including AP, AICE and IB Fine Arts	SAT 1210 ACT 25 (Excludes Writing Score)	75 hours of community service	

*Additional information on the Florida Gold Seal Vocational Scholars Award and the Gold Seal CAPE Scholars Award can be found at <http://www.floridastudentfinancialaid.org/SSFAD/home/uamain.htm>.

Benacquisto Scholarship Program

The Florida National Merit Scholar Incentive Program is created to reward a high school graduate who receives recognition as a National Merit Scholar or National Achievement Scholar and who initially enrolls in the 2015-2016 academic year or, later, in a baccalaureate degree program at an eligible Florida public or independent postsecondary educational institution. In order to be eligible for an award under the incentive program, a student must:

- ❖ Earn a standard Florida high school diploma or its equivalent pursuant to s. 1002.3105 F.S., s. 1003.4281 F.S., s. 1003.4282 F.S., or s. 1003.435 F.S. unless: 31 - The student completes a home education program according to s. 1002.41 F.S.; or - The student earns a high school diploma from a non-Florida school while living with a parent who is on military or public service assignment out of this state •
- ❖ Be accepted by and enroll in a Florida public or independent postsecondary educational institution that is regionally accredited; and
- ❖ Be enrolled full-time in a baccalaureate degree program at an eligible regionally accredited Florida public or independent postsecondary educational institution during the fall academic term following high school graduation.

An eligible student who is a National Merit Scholar or National Achievement Scholar and who attends a Florida public postsecondary educational institution shall receive an incentive award equal to the institutional cost of attendance minus the sum of the student's Florida Bright Futures Scholarship and National Merit Scholarship or National Achievement Scholarship.

An eligible student who is a National Merit Scholar or National Achievement Scholar and who attends a Florida independent postsecondary educational institution shall receive an incentive award equal to the highest cost of attendance for a resident of this state enrolled at a Florida

public university, as reported by the Board of Governors of the State University System, minus the sum of the student's Florida Bright Futures Scholarship and National Merit Scholarship or National Achievement Scholarship.

A student may receive the incentive award for a maximum of 100 percent of the number of credit hours required to complete a baccalaureate degree program, or until completion of a baccalaureate degree program, whichever comes first. (s. 1009.893 F.S).

STATE REQUIRED TESTING

Each school provides testing services to all of its students. Upon request, the counselor can make arrangements to have interest inventories, intelligence and/or aptitude tests administered. If there is a problem that requires a special evaluation or test, the services of the school psychologist may be provided with the written permission of the parent.

Florida Standards Assessment (FSA) The Florida Standards Assessment (FSA) and End-of-Course (EOC) assessments are criterion-referenced tests. These tests assess student achievement on the knowledge and skills described in the state curriculum framework called the Florida Standards.

- ❖ All grade nine (9) and grade ten (10) students take the FSA ELA Assessment.
- ❖ A passing score on the grade ten (10) FSA ELA is required to graduate (or a concordant score on an approved assessment – see chart below).
- ❖ The Algebra 1 End-of-Course (EOC) assessment is required for all students enrolled in Algebra 1 or an equivalent course. A passing score on this assessment is required for graduation (or a comparative score on an approved assessment – see chart below). The Algebra 1 EOC will count as 30% of the final course grade.
- ❖ The Geometry End-of-Course (EOC) assessment will be required for all students enrolled in Geometry or an equivalent course. The Geometry EOC will count as 30% of the final course grade.
- ❖ The Biology End-of-Course (EOC) assessment will be required for all students enrolled in Biology or an equivalent course. The EOC will count as 30% of the final course grade. Students will be required to take the Biology End-of-Course assessment upon completion of their first Biology course or completion of the three-course Integrated Science sequence.
- ❖ The U.S. History End-of-Course (EOC) assessment will be required for all students enrolled in U.S. History or an equivalent course. The EOC counts as 30% of the final course grade.

Concordant and/or Comparative Scores

Students Who Enter Grade 9 in 2018-2019 and BEYOND	
ELA	
FSA: ELA	350

SAT: *EBRW (Evidence Based Reading and Writing)	480
ACT: English and Reading Subtest (Average) Superscored	18
ALGEBRA	
FSA: Algebra EOC	497
SAT: Math	420
ACT: Math	16
PSAT/NMSQT Math	430

Florida Standards Alternate Assessment (FSAA)

The FSAA is provided for a small number of students with significant cognitive disabilities for whom the IEP team has determined and documented the need for an alternate assessment.

WIDA Access for ELLs (WIDA-Alternate Access for ELLs)

WIDA is administered to all ELL students (English Language Learners) to assess language acquisition.

COLLEGE ADMISSIONS TESTING

Preliminary Scholastic Assessment Test / National Merit Scholarship Qualifying Test (PSAT/NMSQT)

In Brevard, the PSAT is administered in the fall to all grade ten (10) grade students as a part of Florida's statewide assessment program. The results of this test are used to determine potential for advanced courses (AP, AICE and DE), to give clear-cut feedback about skills needed for college success, and as concordant/comparative scores for graduation.

The PSAT is also available to grade eleven (11) students. These scores are used to determine NMSQT semifinalists. It is recommended that college-bound students consider taking this test earlier in their high school career to maximize their performance on future college placement tests.

College Entrance and/or Placement Tests

- ❖ **SAT:** SAT Reasoning Test is a test that measures the reading, writing and math levels of high school for all grade eleven (11) students to take the SAT.
- ❖ **SAT II:** Subject tests that are designed to measure knowledge and the ability to apply that knowledge in specific subject areas.
- ❖ **ACT:** A curriculum-based test that measures the skills necessary for college coursework in English, mathematics, reading and science reasoning.
- ❖ **Advanced Placement (AP):** A series of college level subject area tests taken after the completion of AP/IB/AICE coursework in high school.

- ❖ **Postsecondary Education Readiness Test (PERT):** A series of content specific exams in reading, math and writing to determine if students are in need of additional remediation prior to beginning college level courses. College Admission

College Admission Testing Calendar

PSAT/NMSQT	October
SAT I and II	October, November, December, January, May, June
SAT I only	March
ACT	September, October, December, February, April, and June

Calendar PSAT/NMSQT SAT I and II October October, November, December, January, May and June SAT I only March ACT September, October, December, February, April and June Check with your counselor for exact dates, applications, and deadlines.

POST HIGH SCHOOL GRADUATION

Students interested in continuing their education at a four-year college, a two-year college, at a business, trade, or technical school should begin early in their high school career to formulate their plans. In choosing a postsecondary institution, one should consider the following:

- ❖ Type of educational program available
- ❖ High school subjects required for admission
- ❖ Specific admission tests required
- ❖ Length of time needed for completion of program
- ❖ Cost of schooling
- ❖ Financial aid available
- ❖ Housing facilities
- ❖ Location, size, and the accrediting agency of the school

ADMISSION TO TWO OR FOUR YEAR COLLEGES AND UNIVERSITIES

Admission to college is based upon an evaluation of one’s grade point average (GPA), standardized test scores (SAT I or ACT), letters of recommendation, and personal data (which may include a written essay). Colleges usually determine GPA status based on the following core academic courses: English, social studies, world language, laboratory science, and mathematics beginning with Algebra I. Depending on individual college requirements, other courses may be included in determining the GPA. Students can best prepare for college and college entrance tests

by taking Level 3 or higher courses. Minimum college entrance course recommendations, in grades 9 through 12 are listed:

- ❖ 4 years of English (language arts)
- ❖ 4 years of math (Algebra 1 and higher)
- ❖ 3 years of science
- ❖ 3 years of social studies
- ❖ 2 years of a world language

College bound students who take a program below this recommendation level may find some difficulty achieving satisfactory scores on college admission tests and entrance to selective institutions.

Many colleges and universities require specific academic subjects for entry. Students who are interested in continuing their formal education beyond high school should check college catalogs and discuss their plans with their school counselor.

What Colleges Require

The admission requirements vary from college to college. They may include any or all of the following:

- ❖ An application fee, usually non refundable. Many colleges will waive this fee under special circumstances. See your counselor for details.
- ❖ An official application form providing information about your background, previous education, and college plans. Many colleges will waive this fee under special circumstances. See your counselor for details.
- ❖ An official high school transcript of your courses, final grades and test scores.
- ❖ One or more standardized admission tests. The most common tests used are SAT I, SAT II and ACT. Visit www.collegeboard.com and www.act.org for further information on these tests. (Plan to take these tests at least six weeks before the college's application deadline to allow enough time for the score report to reach the college.)
- ❖ One or more letters of recommendation from a teacher and/or school counselor. Generally, colleges are interested in what you have accomplished in high school and what kind of school citizen you are; however, some institutions may also accept recommendations from a member of the clergy, alumnus, or adult member of the community. As a courtesy, you should give your recommenders ample time to complete the recommendations prior to the college deadline.
- ❖ A personal essay or autobiographical statement is required by some institutions, particularly four year private colleges. This is your chance to express your individuality in a way that will set you apart from other applicants.
- ❖ An interview with a college admissions officer is in your best interest. This is your chance to personally express your background, your interests and goals and why you are interested in the college. It is also a time for you to ask questions for more information needed about a college in order to make an informed decision.

ATHLETIC ELIGIBILITY

In order to participate on an interscholastic athletic team, each prospective athlete must:

- ❖ 1. Be regularly enrolled and in regular attendance.
- ❖ 2. Document his/her initial eligibility with a birth certificate.
- ❖ 3. Be less than 19 years, 9 months old through the entire season of the sport in which he/she participates.
- ❖ 4. Fulfill scholastic requirements as follows:
 - ❖ a. Must have a cumulative 2.5 GPA based on all courses taken
 - ❖ b. Must not have entered 10th grade more than three years ago
- ❖ 5. Complete FHSAA required documents and meet all FHSAA eligibility requirements.

COURSE SEQUENCE

This chart is used to indicate a common sequence for high school mathematics. It is not a system for tracking. For example, a student who begins the sequence with Algebra 1 could take Geometry Honors the following year, based on performance and teacher recommendation. Junior-Senior Level Course options vary by school.

In addition to the Honors and AP Advanced Math classes listed below, there are Dual Enrollment options. Please speak to your school counselor.

* = Student has mastered course standards

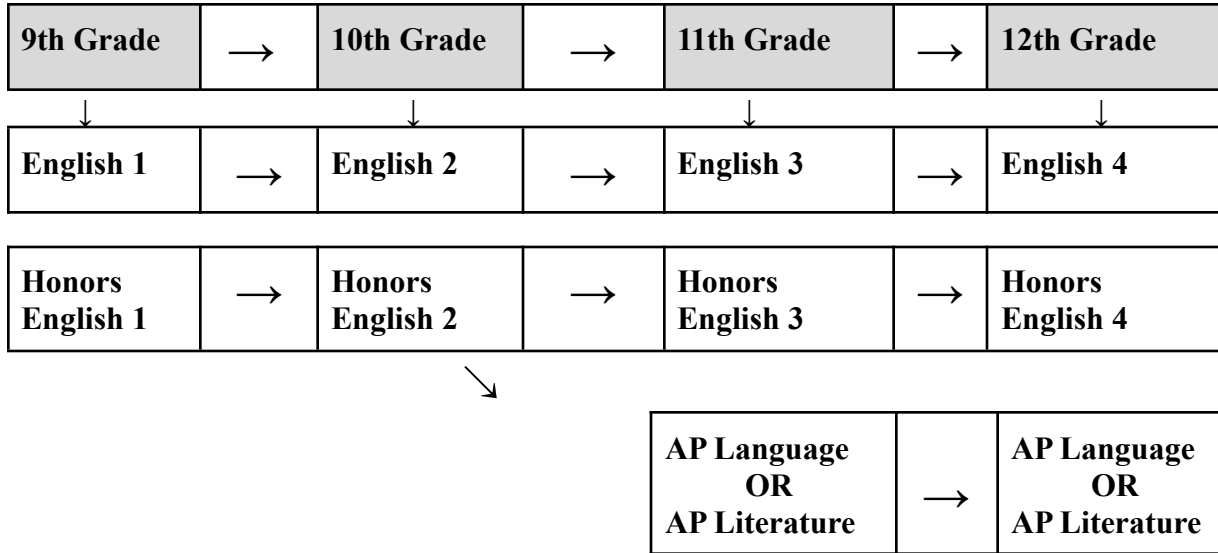

** = Student needs additional support to meet course standards

Current Class	Student Status	Future Course Recommendations
Grade 8 Pre-Algebra	*	Algebra 1
	**	Algebra 1A
Algebra 1	*	Geometry
	**	Liberal Arts Math
Honors Algebra 1	*	Geometry Honors
	**	Geometry
1, 2 Algebra 1A		Algebra 1B
1, 2 Algebra 1B	*	Geometry
	**	Liberal Arts Math
3 Liberal Arts Math 1		Geometry
Geometry	*	Algebra 2

	**	++Junior Senior Level Math Course-see below for options
Honors Geometry	*	Honors Algebra 2
	**	Algebra 2
Algebra 2	*	+Junior Senior Level Math Course-see below for options
	**	++Junior Senior Level Math Course-see below for options
Honors Algebra 2	*	Honors Pre-Calculus
	**	Algebra 2
Honors Pre-Calculus	*	AP Calculus/AP Statistics
	**	+Junior Senior Level Math Course-see below for options
AP Calculus AB	*	AP Calculus BC/ AP Statistics
	**	
++Junior-Senior Level Math courses for students who need additional support to meet course standards (course offerings vary by school):		+Junior-Senior Level Math courses for students who have mastered course standards in Algebra 1, Geometry, and Algebra 2 (course offerings vary by school):
<ul style="list-style-type: none"> ● Math for College Readiness ● Financial Algebra ● Liberal Arts Math 2 		<ul style="list-style-type: none"> ● Advanced Topics (may be taken before PreCalculus Honors by students who need additional support) ● Probability & Statistics Honors ● Dual Enrollment course
<p>NOTES</p> <p>1 The Algebra 1 course high school graduation requirement may be met by any of the following combination of courses: <u>Algebra 1</u> OR <u>Algebra 1 Honors</u> OR <u>Algebra 1A</u> AND <u>Algebra 1B</u>.</p> <p>2 Algebra 1A and Algebra 1B: The student earns 2 math credits for high school graduation; the combination counts as one COURSE for Bright Futures, State University Admissions (SUS) and NCAA.</p> <p>3 Liberal Arts Math 1 and Liberal Arts Math 2 are not approved for NCAA eligibility, but have been approved for Bright Futures and SUS admissions.</p>		

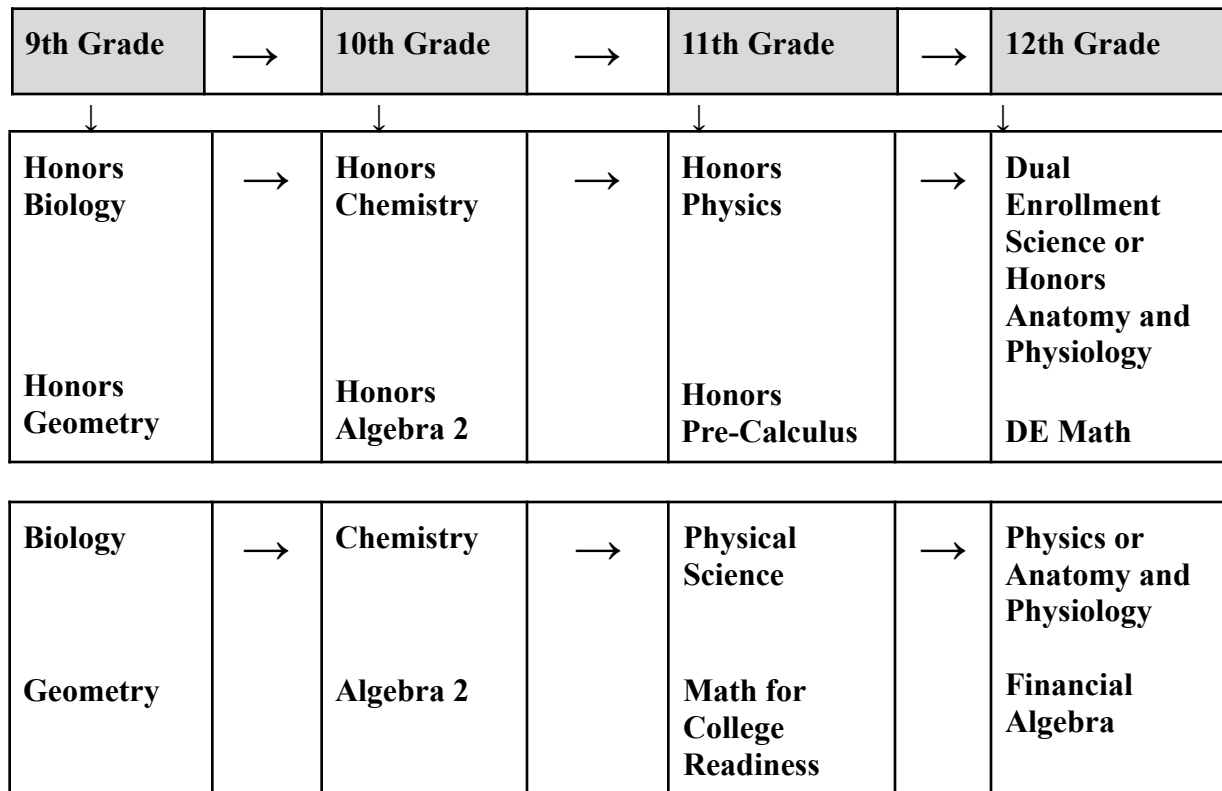

COURSE SEQUENCES

High School English Language Arts

NOTE: Four English Language Arts credits required for graduation.

High School Math and Science Sequence

Biology (Regular or Honors)	→	Physical Science (Regular or Honors)	→	Chemistry (Regular or Honors)	→	Physics or Anatomy and Physiology (Regular or Honors)
Algebra 1 (Regular or Honors)		Geometry (Regular or Honors)		Algebra 2 (Regular or Honors)		Honors PreCalculus or Math for College Readiness

Notes:

- Algebra 2 a co-requisite for Chemistry
- Typically, Algebra 2 (regular) will not proceed Honors Pre-Calculus

EQ Science Courses (Must have Biology and Chemistry; choose a 3rd)

- | | |
|--|---|
| <ul style="list-style-type: none"> • AP/DE Courses • Anatomy and Physiology/Honors Anatomy and Physiology • Bioscience Honors • Chemistry/Honors Chemistry • Earth/Space Science or Earth/Honors Space Science Honors • Environmental Science/Honors EnvironmentalScience Honors | <ul style="list-style-type: none"> * Forensic Science 1 or Forensic Science 2 *Integrated Science 1, 2, 3/ Honors Integrated Science 1, 2, 3 *Marine Science 1 or Marine Science 2/Honors *Physical Science/Honors Physical Science *Physics/Honors Physical Science |

NOTE: Three of the four social studies credits required for graduation must include one credit each in World History, US History, and US Government/Economics.

OFFICE OF STUDENT SERVICES

School counselors and other professional staff from the Office of Student Services play a significant role in creating a positive climate. They provide assistance to students in developing their academic skills, broadening their educational experiences, and overcoming challenges that could interfere with their academic development. Some of the areas of responsibility of the Office of Student Services are as follows:

- ❖ Attendance
- ❖ Child abuse and neglect prevention services
- ❖ Dropout prevention
- ❖ Foreign exchange programs
- ❖ Health services Homeless/children in transition
- ❖ Home education
- ❖ English for Speakers of Other Languages (ESOL)
- ❖ Missing children

- ❖ Social Emotional Supports
- ❖ Safe schools program Student records
- ❖ School counseling
- ❖ Student-parent program
- ❖ Vision and hearing screening

High School Curriculum

Language Arts

English 1

1001310

1.0 credit

The purpose of this course is to provide English 1 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. The content should include, but not be limited to, the following: active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn, analysis of literature and informational texts from varied literary periods to examine, writing for varied purposes, effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions, collaboration amongst peers.

Honors English 1

1001320

1.0 credit

The purpose of this course is to provide English 1 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. The content should include, but not be limited to the following: active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine writing for varied purposes, effective listening, speaking; and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; collaboration amongst peers.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

English 2

1001340

1.0 credit

The purpose of this course is to provide grade 10 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. The content should include, but not be limited to, the following: active reading of varied texts for what they say explicitly, as well as the logical

inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine; writing for varied purposes; effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; and collaboration amongst peers

Honors English 2

1001340

1.0 credit

The purpose of this course is to provide grade 10 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. The content should include, but not be limited to, the following: active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine writing for varied purposes; effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; and collaboration amongst peers.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

ACCESS English 3

7910130E

1.0 credit

The purpose of this course is to provide grade 11 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. The content should include, but not be limited to, the following: active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine: writing for varied purposes; effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; and collaboration amongst peer.

NOTE: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

English 3

1001370

1.0 credit

The purpose of this course is to provide grade 11 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

The content should include, but not be limited to, the following: active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine; writing for varied purposes; effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; and collaboration amongst peers.

Honors English 3

1001380

1.0

The purpose of this course is to provide grade 11 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. The content should include, but not be limited to, the following: active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine; writing for varied purposes; effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; and collaboration amongst peers.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

English 4

1001400

1.0 credit

The purpose of this course is to provide grade 12 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness; active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine; writing for varied purposes; effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; and collaboration amongst peers.

Honors English 4

1001410

1.0 credit

The purpose of this course is to provide grade 12 students, using texts of high complexity, integrated language arts study in reading, writing, speaking, listening, and language for college

and career preparation and readiness; active reading of varied texts for what they say explicitly, as well as the logical inferences that can be drawn; analysis of literature and informational texts from varied literary periods to examine; writing for varied purposes; effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions; and collaboration amongst peers.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

AP English Language 1001420

AP English Language and Composition equates to an introductory college course in rhetorical analysis and composition. AP English Language and Composition is different from other high school English courses because it focuses on rhetoric. While promoting writing in many contexts for a variety of purposes, the English Language course is the place where nonfiction texts and contexts take center stage. Here students think deeply about language as a persuasive tool and about the dynamic relationship of writer, context, audience, and argument. Students who take this course are required to take the Advanced Placement examination administered by the College Board.

Prerequisite: This course is offered to 11th and 12th graders who have completed two years of high school English courses, mastered the skills required for the Honors English classes, maintained a minimum of 85% in prior English classes, and received a teacher recommendation. Consideration will also be given in accordance with the College Board AP Success Predictor Report.

Advanced Placement Course Note: AP courses and exams emphasize challenging, research-based curricula aligned with higher education expectations. AP classes are taught using College Board standards at a college level. This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular/honors course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline. Scholars will be required to take the AP exam at the of the school year that corresponds to the AP class.

AP English Literature 1001430

AP English Literature and Composition equates to an introductory literary analysis course in college. AP English Literature challenges students to read and interpret a wide range of imaginative works. The course invites students to explore a variety of genres and literary periods and to write clearly about the literature they encounter. On a daily basis, it asks them to read critically, think clearly, and write concisely. By the end of the course, students will have

cultivated a rich understanding of literary works and acquired a set of analytical skills they will use throughout their lives.

Prerequisite: This course is offered to 11th and 12th graders who have completed two years of high school English courses, mastered the skills required for the Honors English classes, maintained a minimum of 85% in prior English classes, and received a teacher recommendation. Consideration will also be given in accordance with the College Board AP Success Predictor Report.

Advanced Placement Course Note: AP courses and exams emphasize challenging, research-based curricula aligned with higher education expectations. AP classes are taught using College Board standards at a college level. This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular/honors course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline. Scholars will be required to take the AP exam at the of the school year that corresponds to the AP class.

Sciences

Access Biology

7920015

1.0 credit

The purpose of this course is to provide students with an understanding of the basic concepts and issues of living organisms. The content includes chemistry of life from a biological perspective, cellular structure and function, heredity, mechanisms of biological diversity, interdependence of living organisms as well as a survey of living organisms, animal anatomy and physiology. Laboratory experiments are an integral part of this course.

NOTE: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Biology

2000310

1.0 credit

The purpose of this course is to provide students with an understanding of the basic concepts and issues of living organisms. The content includes chemistry of life from a biological perspective, cellular structure and function, heredity, mechanisms of biological diversity, interdependence of living organisms as well as a survey of living organisms, animal anatomy and physiology. Laboratory experiments are an integral part of this course.

Honors Biology

2000320

1.0 credit

This course investigates the full spectrum of biological topics, ranging from the molecular to the organismal level (biochemistry, cell biology, genetics, evolution, physiology, and ecology). The course is taught from an evolutionary perspective and is intended to prepare highly motivated students for their future course work in advanced level science classes. The Honors Biology course is fast-paced and rigorous; students are expected to process their learning well beyond simple rote memorization. The course requires more time outside the classroom for preparation, study, and completion of assignments than the Biology course.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

Chemistry

2003340

1.0 credit

The emphasis in this course is on the description of the physical properties of matter and the changes these properties undergo during a chemical reaction. The solid, liquid, and gaseous states are described by laboratory exercises. The structure of the atom and the processes involved in forming compounds are discussed with special attention to the topics of oxidation/reduction, stoichiometry, kinetics and equilibrium. The comparative chemistry of elements is stressed throughout the course. Lab work is required.

Honors Chemistry

2003350

1.0 credit

Emphasizes the study of composition, properties, and changes associated with matter. Includes measurement, classification and structure of matter, atomic theory, molecules, periodicity, chemical bonding, formula writing, nomenclature, chemical equations, stoichiometry, kinetic theory, gas laws, acids and bases, energy relationships, solids, liquids and solutions.

Experimental design and laboratory investigations are an integral part of this course. The course requires more time outside the classroom for preparation, study, and completion of assignments than the Chemistry course.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

Physics

2003380

1.0 credit

Emphasizes the theories and laws governing the interaction of matter, energy, and the forces of nature. Includes mechanics, thermo-dynamics, wave phenomenon, magnetism, nuclear physics and electricity. Experimental design and laboratory investigations are integral.

NOTE: It is strongly recommended that students who intend to attend a 4-year college/university takes a Physics course in high school.

Honors Physics**2003390****1.0 credit**

Emphasizes the theories and laws governing the interaction of matter, energy, and the forces of nature. Includes mechanics, thermo-dynamics, wave phenomenon, magnetism, nuclear physics and electricity. Experimental design and laboratory investigations are integral. It is strongly recommended that students who intend to attend a 4-year college/university take a Physics of these courses in high school.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

Senior Year Science**Social Studies****World History****2109310****1.0 credit**

This course covers world history from the origins of humans to 1500. Examines the political, social, economic, scientific, and cultural events that have affected human civilizations. It has two main approaches. First, students will explore the values held by ancient people in relation to contemporary ones. Students will examine how earlier beliefs about authority, the organization of society, the divine and the world at large differ from or complement modern views. Second, we will reflect upon historical processes such as migration, trade, warfare, the development of technology and cultural exchange. Students will investigate how these processes changed individual lives at different periods in pre-modern history.

US History

2100310

1.0 credit

A survey of the history of our nation, U.S. History places emphasis on the period beginning with European colonization to the present. Through a close examination of the American past, students will gain a truer appreciation and understanding of the forces that have shaped our country.

Honors US History

2100320

1.0 credit

A survey of the history of our nation, U.S. History places emphasis on the period beginning with European colonization to the present. Through a close examination of the American past, students will gain a truer appreciation and understanding of the forces that have shaped our country.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

AP US History

2100330

1.0 credit

This course prepares students for the Advanced Placement Examination in United States History. It aligns with the curricular and skills requirements as outlined by College Board in the nine historical periods are thematically investigated for significant events, individuals, developments, and processes from 1491 to the present. It takes a chronological approach to American history while also exploring the key themes of: Identity; Work, Exchange and Technology; Peopling;

Politics and Power; America and the World; Environment and Geography: Physical and Human and Ideas, Beliefs and Culture.

Prerequisite: This course is offered to 10th graders who have completed World History, mastered the skills required for the Honors World History, maintained a minimum of 85% in prior History classes, and received a teacher recommendation. Consideration will also be given in accordance with the College Board AP Success Predictor Report when applicable.

Advanced Placement Course Note: AP courses and exams emphasize challenging, research-based curricula aligned with higher education expectations. AP classes are taught using College Board standards at a college level. This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular/honors course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline. Scholars will be required to take the AP exam at the of the school year that corresponds to the AP class.

Access American Government

7921015

0.50 credit

This one semester course examines the structure of the American government and political system. Students will gain an understanding of essential political practices that will equip them to actively participate in our society. Emphasis is on the organization of our government and the processes that facilitate its function as well as on the individual's role and responsibility in both government and politics. Examines the American governmental structure and political behavior at the federal, state, and local level. Examines the effect of each level of government upon the individual citizen.

NOTE: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Access Economics with Financial Literacy**7921022****0.50 credit**

Economics course consists of the following content area strands: Economics and Geography. The primary content emphasis for this course pertains to the study of the concepts and processes of the national and international economic systems. Content should include, but is not limited to, currency, banking, and monetary policy, the fundamental concepts relevant to the major economic systems, the global market and economy, major economic theories and economists, the role and influence of the government and fiscal policies, economic measurements, tools, and methodology, financial and investment markets, and the business cycle.

NOTE: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Honors Senior Thesis**2105355****.50 credit**

thesis represents the final threshold of Classical Education. At this point, you have been prepared for a responsible life as a free human being and citizen. However, education is a lifelong process, and whether you choose to attend college or not, you will soon become its primary caretaker. Deciding what it is you need to know and then making a plan to learn it is part of your responsibilities as an adult and a marker that you are, indeed, classically educated. Before we can release you into the “wild” then, you have to prove to us that you can apply the lessons you have learned by investigating-- on your own initiative and with relative independence--a question of fundamental importance to mankind. These questions should already be familiar to you from your time at Classical Academy. They include, but are not limited to:

- What is a human being? A citizen? A hero?
- What is nature? What are its elements and ways? What is the place of man within the cosmos?

The answers we give to such questions, whether explicitly in our thoughts or implied by our actions, provide the fundamental context of our lives, determining the meaning of who we are as individuals and as a society. Your ability to conduct this investigation prudently, thoroughly, and independently is the measure of how successful your education at Classical Academy has been. Furthermore, the senior thesis represents university-level work at its most demanding, and as such it serves as excellent preparation for those of you who will be moving on to college.

Philosophy**1004300****.50 credit**

The purpose of this class is to introduce students to the basics of moral philosophy as it has been understood within the western tradition. The focus will be on those authors who have been most foundational to the Perennial Philosophy: Plato, Aristotle, Cicero, and Aquinas. The course will also aim to provide an overview of the various changes and developments that have

occurred in ethical thought, to provide students with various perspectives that will help sharpen their own thinking about moral matters.

Mathematics

Algebra 1

1200310

1.0 credit

Algebra I is the foundation for mathematical studies and is the prerequisite for all subsequent secondary math courses. Mastery of all operations is expected so that students can deepen understanding through application using order of operations, algebraic expressions, functions and equations. Students will continue their study of linear functions and relate these ideas to quadratic functions, while interpreting their solutions and investigating word problems that model these functions. Includes developing an understanding of relationships between quantities and reasoning descriptive with equations; linear and exponential relationships; statistics; expressions and equations; and quadratic functions and Modeling.

Geometry

1206310

1.0 credit

This course enables the student to understand the basic structure of geometry and to develop growth in understanding the deductive method. The objectives are to use and strengthen algebraic skills and gain knowledge of the methods of coordinate geometry. Students also learn how to organize thoughts in developing formal proofs. Topics include: induction, deduction, angle relationships, lines, planes, coordinate geometry, areas, and volume.

Honors Geometry

Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

Access Algebra 2

7912095

1.0 credit

Building on the work with linear, quadratic, and exponential functions, this course extends the repertoire of functions to include polynomial, rational, radical and trigonometric functions. Students work closely on modeling and application of functions while finishing with inferences and conclusions of data along with application of probability and statistics.

NOTE: Access courses are intended only for students with a significant cognitive disability. Access courses are designed to provide students with access to the general curriculum. Access points reflect increasing levels of complexity and depth of knowledge aligned with grade-level expectations. The access points included in access courses are intentionally designed to foster high expectations for students with significant cognitive disabilities.

Algebra 2

1200330

1.0 credit

Building on the work with linear, quadratic, and exponential functions, this course extends the repertoire of functions to include polynomial, rational, radical and trigonometric functions. Students work closely on modeling and application of functions while finishing with inferences and conclusions of data along with application of probability and statistics.

Honors Algebra 2

1200340

1.0 credit

Building on the work with linear, quadratic, and exponential functions, this course extends the repertoire of functions to include polynomial, rational, radical and trigonometric functions. Students work closely on modeling and application of functions while finishing with inferences and conclusions of data along with application of probability and statistics.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

Honors Pre-Calculus

1202340

1.0 credit

Emphasizes the study of functions, trigonometry, conics, vectors, limits, and other skills needed for success in the study of calculus. Precalculus Honors is an advanced course in mathematics that completes the student's preparation for a college level calculus course. In addition to focusing on topics that are needed as preparation for calculus, the focus of the course is to develop clarity of thought and expression and develop problem solving skills. There is considerable emphasis on functions and their graphs. Polynomial, logarithmic, exponential and trigonometric functions are all treated extensively, as well as vectors, parametric equations, sequences and series and polar coordinates.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

Senior Math Class

World Languages

Latin 1

0706300

1.0 credit

Latin 1 introduces students to the target language and its culture. The student will develop a thorough understanding of the written language as well as of the influence the language and culture has had on other world languages, culture, government, arts and laws. Emphasis is placed on proficient understanding in the reading of the language. An introduction to writing is also included as well as culture, connections, comparisons, and communities. Latin students will focus more on reading and interpreting written passages rather than using oral modes of communication.

NOTE: Can be taken in 7th or 8th grade for high school credit.

Latin 2

0706310

1.0 credit

Latin 2 expands the skills acquired by students in Latin 1. Specific content includes, but is not limited to, expansion of vocabulary and translation skills through comprehension of selected readings. Vocabulary and grammar stresses activities which are important to prepare for translating the works of authentic authors in the target language. In presentational speaking and presentational writing, Latin students will present projects and reports of the research they have done about the culture, arts, history, politics, literature and mythology of the target language in English. Latin students will focus more on reading and interpreting written passages rather than using oral modes of communication.

NOTE: Can be taken in 7th or 8th grade for high school credit.

Honors Latin 3

0706320

1.0 credit

Latin 3 expands the skills acquired by students in Latin 2. Specific content includes, but is not limited to, expansion of vocabulary and translation skills through comprehension of selected readings. Vocabulary and grammar stress activities which are important to authors such as Caesar, Cicero, Plautus, Ovid, Catullus, Horace, Pliny, Sallust, Juvenal and Vergil. In presentational speaking, Latin students will present projects and reports of the research they have done about the culture, arts, history, politics, literature and mythology of the target language in English. For presentational writing, students will write essays of literary criticism to prepare for those expected in Advanced Placement and college classes. Latin students will focus more on reading and interpreting written passages rather than using oral modes of communication.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline.

Honors Latin 4

0706330

1.0 credit

Latin 4 expands the skills acquired by students in Latin 3. Specific content includes, but is not limited to, expansion of vocabulary and translation skills through comprehension of selected readings. Vocabulary and grammar stress activities which are important to authors such as Caesar, Cicero, Plautus, Ovid, Catullus, Horace, Pliny, Sallust, Juvenal and Vergil. In presentational speaking, Latin students will present projects and reports of the research they have done about the culture, arts, history, politics, literature and mythology of the target language in English. Latin students will focus more on reading and interpreting written passages rather than using oral modes of communication.

Honors Course Note: This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give

students a deeper understanding of conceptual themes and organization within and across the discipline.

AP Latin

0706375

1.0 credit

This course follows the Advanced Placement Program guidelines, with emphasis on both Vergil's Aeneid and Caesar's Gallic War. The student will translate a prepared passage from the syllabus into idiomatic English; discuss particular motifs or general themes suggested by the passage; and critically analyze the qualities of English translations of a particular passage. There will also be a focus on learning Vergilian and Caesarian vocabulary that will be helpful on the SAT exam. Students who take this course are required to take the Advanced Placement examination administered by the College Board.

Prerequisite: This course is offered to scholars who have mastered the skills required for previous Latin classes, maintained a minimum of 85% in prior Latin classes, and received a teacher recommendation. Consideration will also be given in accordance with the College Board AP Success Predictor Report when applicable.

Advanced Placement Course Note: AP courses and exams emphasize challenging, research-based curricula aligned with higher education expectations. AP classes are taught using College Board standards at a college level. This course requires more time outside the classroom for preparation, study, and completion of assignments than the regular/honors course. This course requires a greater demand on students through increased academic rigor. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across the discipline. Scholars will be required to take the AP exam at the of the school year that corresponds to the AP class.

Spanish 1

0708340

1.0 credit

Spanish 1 introduces students to the target language and its culture. The student will develop communicative skills in all 3 modes of communication and cross-cultural understanding. Emphasis is placed on proficient communication in the language. An introduction to reading and writing is also included as well as culture, connections, comparisons, and communities.

Spanish 2

0708350

1.0 credit

Spanish 2 reinforces the fundamental skills acquired by the students in Spanish 1. The course develops increased listening, speaking, reading, and writing skills as well as cultural awareness. Specific content to be covered is a continuation of listening and oral skills acquired in Spanish 1. Reading and writing receive more emphasis, while oral communication remains the primary objective. The cultural survey of the target language-speaking people is continued.

Honors Spanish 3

Physical Education

HOPE

3026010

1.0 credit

The purpose of these courses are to develop and enhance healthy behaviors that influence lifestyle choices and student health and fitness. Students will realize the full benefit of this course when it is taught with an integrated approach. In addition to the physical education content represented in the benchmark, specific health education topics within this course include, but are not limited to: Mental/Social Health, Physical Activity, Components of Physical Fitness, Nutrition and Wellness Planning, Diseases and Disorders, Alcohol, Tobacco, and Drug Prevention, Human Sexuality including Abstinence and HIV and Internet Safety.

NOTE: Meets the one credit Physical Education graduation requirement. HOPE meets the online graduation requirement.

Individual Dual Sports 1

1502410

0.50 credit

Develops the physical skills necessary to be competent in sports that require one or two players. Knowledge of offensive and defensive strategies and tactics and appropriate social behaviors within both competitive and non- competitive activity settings. The integration of fitness concepts throughout the content is critical to student success in this course and in the development of a healthy and physically active lifestyle

Individual Dual Sports 2

1502420

0.50 credit

Builds on skills learned in Individual and Dual Sports 1. Advanced movement techniques, offensive and defensive strategies as well as biomechanical principles are included in coursework. Fitness concepts are integrated throughout the content. Course encourages student participation in individual and dual sports as lifetime activities.

Team Sports 1

1503350

0.50 credit

Improves the student's knowledge and application of skills, techniques, strategies, rules, and safety practices. Also provides opportunities to practice good sportsmanship. Includes basketball, soccer, softball, volleyball, flag football; and may include: field hockey, lacrosse, flag rugby, or team handball.

Team Sports 2

1503360

0.50 credit

Team Sports 2 provides additional in depth instruction and student leadership opportunities. Improves the student's knowledge and application of skills, techniques, strategies, rules, and safety practices. Also provides opportunities to practice good sportsmanship. Includes basketball, soccer, softball, volleyball, flag football; and may include: field hockey, lacrosse, flag rugby, or team handball.

Research and Critical Thinking Skills

Critical Thinking and Study Skills

1700370

0.50 credit

Provides students opportunities to develop test taking skills and demonstrates proficiency on standardized tests. Students will study vocabulary and word attack skills, apply critical thinking skills to mathematics, practice overall test taking strategies, and develop an understanding of college entrance examination formats.

Engaged Citizenship Through Service Learning

2104350

1.0 credit

This course provides an introduction and opportunities for leadership in the areas of service-learning and civic responsibility. Academic, personal, and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 30 hours' duration.

Leadership

2400300

1.0 credit

The purpose of this course is to teach leadership skills, parliamentary procedure, problem solving, decision making, communication skills, group dynamics, time and stress management, public speaking, human relations, public relations, team building, and other group processes. The content should include, but not be limited to, the following: study in self-understanding, development in such areas as goal setting, self-actualization, and assertiveness, and study of organizational theories and management.

Learning Strategies

7963080

1.0 credit

The purpose of this course is to enable students with disabilities to acquire and generalize strategies and skills across academic, community, and employment settings to achieve annual goals based on assessed needs and the student's individual educational plan (IEP).

Research

1700300

1.0 credit

The purpose of this course is to enable students to develop fundamental knowledge of the steps in the research process. The content should include, but not be limited to, the following: nature and purpose of research, research questions and hypotheses, research methods and procedures, review of literature and other resources, primary and secondary sources, directed investigations, organization of information, report formats, styles, and content, critical analysis of research, and submission of a major independent research project.

Performing and Fine Arts

2D Art

0101300

1.0 credit

This course provides opportunities to explore media and techniques used to create a variety of two-dimensional (2D) artworks through drawing, painting, printmaking, collage, and/or design. Students practice, sketch, and manipulate the basic elements of art and principles of design to improve mark-making and develop purposeful compositions created from observation, research, or imagination. Through critique processes, students learn to reflect, evaluate and respond to artwork.

2 D Art 2

0101310

1.0 credit

This course focuses on further development, refinement, and progression of the Art 1 content. This course provides opportunities to explore media and techniques used to create a variety of two-dimensional (2D) artworks through drawing, painting, printmaking, collage, and/or design. Students practice, sketch, and manipulate the basic elements of art and principles of design to improve mark-making and develop purposeful compositions created from observation, research, or imagination. Through critique processes, students learn to reflect, evaluate and respond to artwork.

3D Studio Art

0101330

1.0 credit

Students explore how space, mass, balance, and form combine to create aesthetic forms or utilitarian products and structures. Instruction may include, but is not limited to, content in green or industrial design, sculpture, ceramics, or building arts. Media may include, but are not limited to, clay, wood, plaster, and paper maché with consideration of the workability, durability, cost, and toxicity of the media used. Student artists consider the relationship of scale (i.e., hand-held, human, monumental) through the use of positive and negative space or voids, volume, visual weight, and gravity to create low/high relief or freestanding structures for personal intentions or public places. They explore sharp and diminishing detail, size, position, overlapping, visual pattern, texture, implied line, space, and plasticity, reflecting craftsmanship and quality in the surface and structural qualities of the completed art forms. Students in the 3-D art studio focus on use of safety procedures for process, media, and techniques. Student artists use an art criticism process to evaluate, explain, and measure artistic growth in personal or group works. This course incorporates hands-on activities and consumption of art materials.

Theatre 1**0400310****1.0 credit**

This course is designed for students with little or no theatre experience, and promotes enjoyment and appreciation for all aspects of theatre. Classwork focuses on the exploration of theatre literature, performance, historical and cultural connections, and technical requirements.

Improvisation, creative

dramatics, and beginning scene work are used to introduce students to acting and character development. Incorporation of other art forms in theatre also helps students gain appreciation for other art forms, such as music, dance, and visual art.

Theatre 2**0400320****1.0 credit**

This course is designed for students with a year of experience or more. Classwork builds on skills learned in level 1, and focuses on characterization and playwriting/playwrights' contributions to theatre. Improvisation, creative dramatics, and exploration of the technical aspects of scene work help students challenge and strengthen their acting skills.

Honors Theatre 3**0400330****1.0 credit**

This course is designed for students with significant experience in theatre, and promotes depth of engagement and lifelong appreciation for theatre through a broad spectrum of teacher-assigned and self-directed study and performance. Students regularly reflect on aesthetics and issues related to and addressed through theatre, and create within various aspects of theatre in ways that are progressively more innovative. In keeping with the rigor expected in an accelerated setting, students assemble a portfolio showcasing a significant body of work representing personal vision and artistic growth over time; mastery of theatre skills and techniques in one or more areas; and evidence of significant oral and written analytical and problem-solving skills based on their structural, historical, and cultural knowledge.

Honors Theatre 4**0400340****1.0 credit**

This course provides opportunities for students with extensive theatre experience to build on Theatre 3 skills. Students work independently and are self-directed in study and performance.

Musical Theater 1**0400700****1.0 credit**

This is a course for students with little or limited experience in musical theatre that focuses on, but is not limited to, acting, vocal performance, dance, non-dance movement, and staging, which transfer readily to performances in musicals and other venues. Students survey the evolution of music through a humanities approach and representative literature. Music theatre students

explore the unique staging and technical demands of musicals in contrast to non-musical plays. Public performances may serve as a culmination of specific instructional goals.

Musical Theater 2

0400710

1.0 credit

This course further examines the content in level 1 and is designed for students with a year or more experience in musical theatre. Students learn from the styles and techniques used by well-known singer-actor-dancers and choreographers, examine contributions of well-known performers, writers, composers, and choreographers. Students extend their vocal, dance and movement techniques and learn to analyze the components of musical theatre to build a performance portfolio for auditions and/or interviews.

Musical Theater 3

0400720

1.0 credit

Students refine their audition techniques and performance/audition portfolio, and consider the contributions of musical theatre in the community and beyond. Students select a number of pieces to showcase their abilities and become conversant about individuals who, currently and in the past, are considered major contributors to the field. Students refine their dance and movement techniques required to sing and dance for long periods of time in rehearsals and performance. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.

Journalism 1, 2, 3, 4

1006300, 1006310, 1006320, 1006330

1.0 credit each

Provides instruction in writing and production skills related to various journalistic media. Includes news-gathering and writing; development of editorials; sports and feature articles; electronic design and production; and management of journalistic enterprises.

Honors Journalism 5, 6

1006331, 1006332

1.0 credit each

The purpose of this course is to perform advanced skills in the production of journalism across print, multimedia, web, and broadcast/radio platforms and to develop advanced knowledge of journalism history, ethics use, and management techniques related to the production of journalistic media.

Creative Photography

0108310

1.0 credit

Students explore the aesthetic foundations of art making using beginning photography techniques. This course may include, but is not limited to, color and/or black and white

photography via digital media and/or traditional photography. Students become familiar with the basic mechanics of a camera, including lens and shutter operation, compositional foundations, printing an image for display, and evaluating a successful print. Student photographers may use a variety of media and materials, such as 35mm black and white film, single lens reflex camera, digital camera, darkroom, computer application, filters, various papers, digital output, photogram, cyanotypes, Sabatier effect, and pinhole photography. Craftsmanship and quality are reflected in the surface of the prints and the care of the materials. Photographers use an art criticism process to evaluate, explain, and measure artistic growth in personal or group works. This course incorporates hands-on activities and consumption of art materials.

Digital Art Imaging

0108370

1.0 credit

Students explore the fundamental concepts, terminology, techniques, and applications of digital imaging to create original work. Students produce digital still images through the single or combined use of computers, digital cameras, scanners, photo editing software, drawing and painting software, graphic tablets, printers, new media, and emerging technologies. Through the critique process, students evaluate and respond to their own work and that of their peers to measure artistic growth. This course incorporates hands-on activities, the use of technology, and consumption of art materials.

MIDDLE SCHOOL CURRICULUM

Language Arts

M/J Lang Arts 2 Adv

1001050

1.0 credit

The purpose of this course is to provide grade 7 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

M/J Language Arts 3 Adv

1001080

1.0 credit

The purpose of this course is to provide grade 8 students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Mathematics

M/J Accel Math Grade 7

1205050

1.0 credit

In this Grade 7 Advanced Mathematics course, instructional time should focus on five critical area: (1) solving problems involving scale drawings and informal geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area, and volume; (2) drawing inferences about populations based on samples; (3) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (4) grasping the concept of a function and using functions to describe quantitative relationships; and (5) analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.

M/J Grade 8 Pre-Algebra

1205070

1.0 credit

Includes formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; grasping the concept of a function and using functions to describe quantitative relationships; analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.

Physical Education

M/J Comprehensive Physical Education 7/8

1508070

0.50 credit

The purpose of this course is to build on previously acquired knowledge, skills, and values necessary for the implementation and maintenance of a physically active lifestyle. The course content provides exposure to a variety of movement opportunities and experiences which include, but is not limited to: Outdoor Pursuits, Individual/Dual Sports and Alternative/Extreme Sports. The integration of fitness concepts throughout the content is critical to student success in this course and in the development of a healthy and physically active lifestyle.

Research and Critical Thinking

Learning Strategies

7863090

1.0 credit

Enables students with disabilities to acquire and use strategies and skills to enhance their independence as learners in educational and community settings.

NOTE: Can be taken multiple times for credit.

M/J Critical Thinking

1700100**1.0 credit**

The purpose of this course is to enable students to develop learning strategies, critical-thinking skills, and problem-solving skills to enhance their performance in academic and nonacademic endeavors. The content should include, but not be limited to, the following: strategies for acquiring, storing, and retrieving information, strategies for oral and written communication, critical-thinking operations, processes, and enabling skills, problem-solving skills and strategies, strategies for linking new information with prior knowledge.

Introduction to Technology and Career Planning**8600012****0.50 credit**

The purpose of this course is to give students an introduction to the areas of technology and to introduce students to the design and problem solving processes using manipulative skills while working cooperatively with others in team activities.

Social and Emotional Skills 6-8**7863000****No Credit**

Provides instruction related to environmental, interpersonal, and task-related behavior of students with disabilities.

Social and Emotional Skills 9-12**7963070****No Credit**

Provides instruction related to environmental, interpersonal, and task-related behavior of students with disabilities.

Science**M/J Comprehensive Science 2 Adv****2002080****1.0 credit**

Includes problem solving, measurement, safety procedures, earth systems, genetics, energy transfers within systems, interactions of science with technology and society, limiting factors in ecosystems, inheritance patterns, trophic levels, and the relationship between temperature and molecular kinetic energy. Students will design and conduct scientific investigations demonstrating skill and knowledge in a variety of scientific areas.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

M/J Comprehensive Science 3 Adv

2002110

1.0 credit

Includes problem solving, measurement, safety procedures, electromagnetic energy, space science, comparative astronomy, carbon cycle, structure and organization of matter, interactions of science with technology and society, photosynthesis, cellular respiration and atomic theory. The students will design and conduct scientific investigations demonstrating skills and knowledge in a variety of scientific areas.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Social Studies

M/J Civics Advanced

2106020

1.0 credit

The primary content for the course pertains to the principles, functions, and organization of government; the origins of the American political system; the roles, rights, responsibilities of United States citizens; and methods of active participation in our political system. The course is embedded with strong geographic and economic components to support civic education instruction.

The primary content for the course pertains to the principles, functions, and organization of government; the origins of the American political system; the roles, rights, responsibilities of United States citizens; and methods of active participation in our political system. The course is embedded with strong geographic and economic components to support civic education instruction. Honors/Advanced courses offer scaffolded learning opportunities for students to develop the critical skills of analysis, synthesis, and evaluation in a more rigorous and reflective academic setting. Students are empowered to perform at higher levels as they engage in the following: analyzing historical documents and supplementary readings, working in the context of thematically categorized information, becoming proficient in note-taking, participating in Socratic seminars/discussions, emphasizing free-response and document-based writing, contrasting opposing viewpoints, solving problems, etc. Students will develop and demonstrate their skills through participation in a capstone and/or extended research-based paper/project (e.g., history fair, participatory citizenship project, mock congressional hearing, projects for competitive evaluation, investment portfolio contests, or other teacher-directed projects).

M/J US History Adv

2100020

1.0 credit

Primary content emphasis for this course pertains to the study of American history from the Exploration and Colonization period to the Reconstruction Period following the Civil War. Students will be exposed to the historical, geographic, political, economic, and sociological events which influenced the development of the United States and the resulting impact on world history. So that students can clearly see the relationship between cause and effect in historical events, students should have the opportunity to explore those fundamental ideas and events which occurred after Reconstruction.

Note: Academic rigor is more than simply assigning to students a greater quantity of work. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning.

Visual and Performing Arts

M/J Visual Art 2

0101110

0.50 credits

Students investigate contemporary and historical art themes using 2D and 3D media, skills and techniques; while engaging in the art production process within a studio arts environment. Projects may include but are not limited to: drawing, painting, printmaking, collage, mixed media, pottery, and sculpture. Students create new meaning from various media formats, and communicate artistic ideas through the intentional use of the elements of art within their work. Students interpret meaning in their artwork and the artwork of others through discussion, on various artistic concepts, viewpoints, and themes; drawing their own conclusions and employing this knowledge both expressively and technically.

Fundamentals of Vision and Performing Arts

8260500

0.50 credits

This course will assist students in making informed decisions regarding their future academic and occupational goals and to provide information regarding careers in Arts, A/V Technology and Communication career cluster. The content includes, but is not limited to, the development of leadership skills, communication skills, and employability skills; resource management; exploration of Visual Arts, Performing Arts, Journalism and Broadcasting careers. Instruction and learning activities are provided in a laboratory setting using hands-on experiences with the equipment, materials and technology appropriate to the course content and in accordance with current practices.

M/J Understanding Music

1300030

0.50 credit

Students engage in an exploratory study of music through the examination of significant composers and their compositions across selected musical eras and/or genres. Students will also

learn about modern and historical instruments, and gain a rudimentary understanding of the elements of music in order to develop strategies for listening to and appreciating musical works. Students may be expected to attend one or more performances outside of the school day to support and extend learning in the classroom.

1. Attendance Requirement
 - a. College Visits
2. Graduation Fees/Expectations
3. Salutatorian and Valedictorian Requirements
- 4.
